

## ENVIRONMENTAL POLICY STATEMENT

### Our Commitment to Sustainability

At Blue Circle Surveyors Ltd, we recognise the importance of protecting the environment and minimising our ecological footprint. As a professional services consultancy, we are committed to sustainable operations, resource conservation, and promoting environmentally responsible practices throughout our practice activities.

This statement outlines our approach to reducing our environmental impact while supporting sustainability initiatives for our clients and industry partners.

### Our Environmental Policy

This policy applies to all aspects of our operations, including management, office services, site operations, and procurement. Environmental responsibility is shared by all employees, with oversight and implementation led by the Directors.

Our commitments include:

- **Reducing our environmental footprint** through energy efficiency, waste reduction, and responsible sourcing.
- **Implementing sustainable practices** in all stages of project planning and service delivery.
- **Complying with environmental laws and industry standards** to ensure responsible operations.
- **Encouraging environmental responsibility** among employees, clients, and stakeholders.
- **Continually improving our environmental performance** through feedback and innovation.

### Sustainable Operations

To reduce our environmental impact, we:

- **Promote paperless operations** by using digital tools where possible.
- **Encourage the use of eco-friendly materials** and sustainable construction practices.
- **Where possible we will look to utilise energy-efficient devices, lighting, and heating systems** in our offices.
- **Strive for minimal water consumption** and responsible waste disposal.

### Green Travel Practices

To support lower carbon emissions, we:

- **Prioritise virtual meetings** to reduce travel requirements.
- **Use electric or hybrid vehicles** for business travel where feasible.
- **Promote carpooling, cycling, and public transport** among employees.

### Client Engagement & Environmental Awareness

We actively work with clients to promote sustainability by:

- **Advising on sustainable building practices and land use strategies** that minimise environmental impact.
- **Incorporating environmental assessments** into project planning and site development.
- **Protecting local wildlife and biodiversity**, ensuring compliance with regulations on protected species.
- **Raising awareness** within the industry to advocate for greener surveying and development practices.

### Continuous Improvement

We are committed to ongoing enhancement of our environmental initiatives by:

- **Regularly reviewing and updating policies** to align with evolving sustainability standards.
- **Providing environmental training** for employees to stay informed on best practices.
- **Monitoring and auditing environmental performance** to refine and improve processes.

### Monitoring and Review

The Directors will review compliance with this statement annually to ensure alignment with environmental objectives and sustainability goals.

This statement does not form part of any employee's contract of employment or any contract with third parties and may be amended at any time.
